Discounturile se aplica doar in policlinicile proprii Regina Maria din Bucuresti si din tara

Pentru consultatii si pentru setul anual preventiv nu este necesara recomandare medicala; pentru orice alte servicii (inclusiv cele de monitorizare de sarcina) este necesara recomandare medicala valida. Pentru ca serviciile recomandate sa fie acoperite prin asigurare, recomandarea trebuie eliberata de un medic a carui specialitate medicala este incadrata in categoria specialitatilor clinice; recomandarea trebuie sa respecte limitele de competenta profesionala ale medicului trimittor: conform specialitatii medicului, acesta sa detina competenta profesionala de a gestiona medical afectiunea certificata prin diagnosticul de trimitere (de exemplu: pentru CT, RMN, analize de alergologie, imunologie, hormoni nu se accepta trimiteri de la Serviciile care nu sunt incluse in prezenta oferta si nici in anexele detaliate aferente acestora se platesc integral, conform preturilor in vigoare la momentul accesarii acestora

Pentru lista completa a serviciilor incluse, va rugam consultati anexele atasate prezentei oferte

Nu sunt incluse serviciile medicale pentru sterilitate, infertilitate, dorinta de a avea copii, contraceptie precum si orice consecinte ale acestora, indiferent de motivatia solicitarii/efectuării acestora (preventie, screening, investigare, monitorizare si/sau tratament)

Setul anual de analize nu se recolteaza la sediul companiei

Pachetul de nastere de baza acopera cazarea in rezerva tripla. Discount-urile la pachetele de nastere se aplica pentru sarcina inca.

**Rambursare pentru serviciile acoperite efectuate in afara rețelei - conform**  
**Proceduri de rambursare:** Valoarea de rambursare = procentul de discount (conform anexa) x 100% din prețul achitat pentru serviciile medicale incluse, dar nu mai mult de 500 lei/serviciu. Pentru serviciile din anexa cu mentiunea „Inclus”, procentul de discount folosit la calculul valorii de rambursare este 100%

Nu fac obiectul rambursarilor:

- Serviciile medicale de screening, cu exceptia celor incluse in Setul anual de analize
- Serviciile de medicina de urgenta
- Serviciile stomatologice
- discountul aferent serviciilor medicale
- Serviciile de recuperare medicala
- Serviciile efectuate pentru sarcina
- Serviciile efectuate in regim de spitalizare (de zi sau continua)
- Vaccinarile si serviciile medicale asociate acestora
- Serviciile medicale din categoria „Servicii speciale”: Parteneriat Academic, Banca centrala de celule Stem, One Day check-up, Patient Care, Medical advisor

#### Legenda:

o data/an: Inclus gratuit o data pe an, interval de la accesarea anterioara a serviciului, la cererea pacientului

\* discountul/ includerea face referire la consultul in camera de garda. Investigatiile suplimentare, consumabilele/medicamentatia care se administreaza si analizele efectuate in regim de urgenta nu sunt incluse

Prezentata oferta este valabila termen de 30 de zile de la data prezentarii sale. Accesarea serviciilor se va face in conformitate cu Termenii si Conditile Regina Maria:

| 35       | RMN orbite fara substanta de contrast, (2f)                                                                                                     |
| 36       | RMN sinusuri fara substanta de contrast (2f)                                                                                                    |
| 37       | RMN regiune cervicala fara substanta de contrast (2f)                                                                                           |
| 38       | RMN coloana toracala fara substanta de contrast (2f)                                                                                            |
| 39       | RMN coloana lombara fara substanta de contrast (2f)                                                                                             |
| 40       | RMN cap si coloana cervicala fara substanta de contrast (3f)                                                                                    |
| 41       | RMN coloana cervicala si coloana toracala fara substanta de contrast (3f)                                                                       |
| 42       | RMN coloana vertebrala totala fara substanta de contrast (4f)                                                                                   |
| 43       | RMN cap si coloana vertebrala totala fara substanta de contrast (4f)                                                                            |
| 44       | RMN plex brahial fara substanta de contrast (2f)                                                                                                |
| 45       | RMN perete toracic fara substanta de contrast (2f)                                                                                              |
| 46       | RMN segment membru fara substanta de contrast (coapsa,brat,antebrat) (3f)                                                                       |
| 47       | RMN articulatii fara substanta de contrast (umar,pumn,genunchi,glezna) (3f)                                                                     |
| 48       | RMN etaj abdominal superior fara substanta de contrast (3f)                                                                                     |
| 49       | RMN pelvis fara substanta de contrast (3f)                                                                                                      |
| 50       | RMN abdomen/pelvis fara substanta de contrast (3f)                                                                                              |
| 51       | RMN ficat fara substanta de contrast (3f)                                                                                                       |
| 52       | COLANGIO RMN FARA SUBSTANTA DE CONTRAST (1S)                                                                                                    |
| 53       | RMN rinichi fara substanta de contrast (2f)                                                                                                     |
| 54       | RMN coloana cervicala fara substanta de contrast (2f)                                                                                           |
| 55       | RMN coloana cervicala si coloana lombara fara substanta de contrast (3f)                                                                        |
| 56       | RMN coloana toracala si coloana lombara fara substanta de contrast (3f)                                                                         |
| 57       | RMN craniu si os temporal fara substanta de contrast, (3f)                                                                                      |
| 58       | RMN craniu si angiografie RM fara substanta de contrast (2f)                                                                                    |
| 59       | RMN craniu si angio_RM venos (2f)                                                                                                               |
| 60       | RMN craniu cu angiografie arteriala si angiografie venoasa fara substanta de contrast (3f)                                                      |
| 61       | RMN ficat fara substanta de contrast _ Colangiografie RM (4f)                                                                                   |
| 62       | RMN rinichi _ vezica urinara _ uroRM (3f) cu contrast 2 segm                                                                                    |
| 63       | RMN suprarenale fara substanta de contrast (2f)                                                                                                 |
| 64       | RMN pancreas fara substanta de contrast (1s)(2f)                                                                                                |
| 65       | RMN prostata fara substanta de contrast (2f)                                                                                                    |
| 66       | RMN neurocraniu _ spectroscopie (2f) fara contrast                                                                                              |
| 67       | RMN neurocraniu _ DTI _ tractografie 3D (2f) fara contrast                                                                                      |
| 68       | RMN col lombara / artic sacro _ iliac fara substanta de contrast(4f) 2s                                                                         |
| 69       | RMN rinichi _ vezica urinara _ uroRM fara substanta de contrast (2s) (2f)                                                                       |
| 70       | RMN neurocraniu _ spectroscopie _ DTI fara substanta de contrast (1s) (3f)                                                                      |
| 71       | UroRM (2f) fara contrast                                                                                                                        |
| 72       | RMN articulatii fara substanta de contrast(genunchi)                                                                                            |
